

Serial No. 09/965,987

Amdt. dated September 29, 2004

Response to Office Notice of Allowance dated July 15, 2004

REMARKS/ARGUMENTS

Claims 14-22, 25-42 and 44-52 remain in the application. Claims 14-22, 25-42 and 44-52 have been allowed.

The present amendment is being filed on the same day with payment of the Issue Fee in the application. Therefore, the Applicants believe that this amendment is being timely filed under the requirements set forth in 37 CFR §1.312 for amendments filed after the mailing of the Notice of Allowance.

In The Specification

In the Notice of Allowance mailed on July 15, 2004, the title of the patent application appears as "Thermal Switch Containing Temperature Sensor."

The title of the patent application as originally filed is: Thermal Switch Containing Resistance Temperature Detector. At no time during the prosecution of the instant application did the Examiner require a change to the title, nor did the Applicants change the title at any time during the prosecution. Therefore, the correct title is:

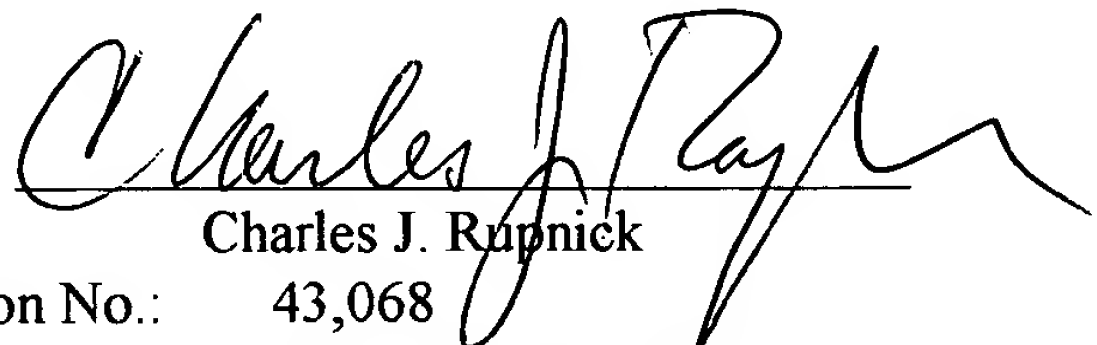

Thermal Switch Containing Resistance Temperature Detector.

The error is believed to be the fault of the Patent Office. Therefore, no fee is believed due.

If the Examiner has questions or wishes to discuss any aspect of the case, the Examiner is encouraged to contact the undersigned at the telephone number given below.

Respectfully submitted,

Attorney:

Charles J. Rupnick
